

ESREVER

MEME COIN & PLATFORM

THE COIN THAT REVERSES EVERYTHING

esrever.fun

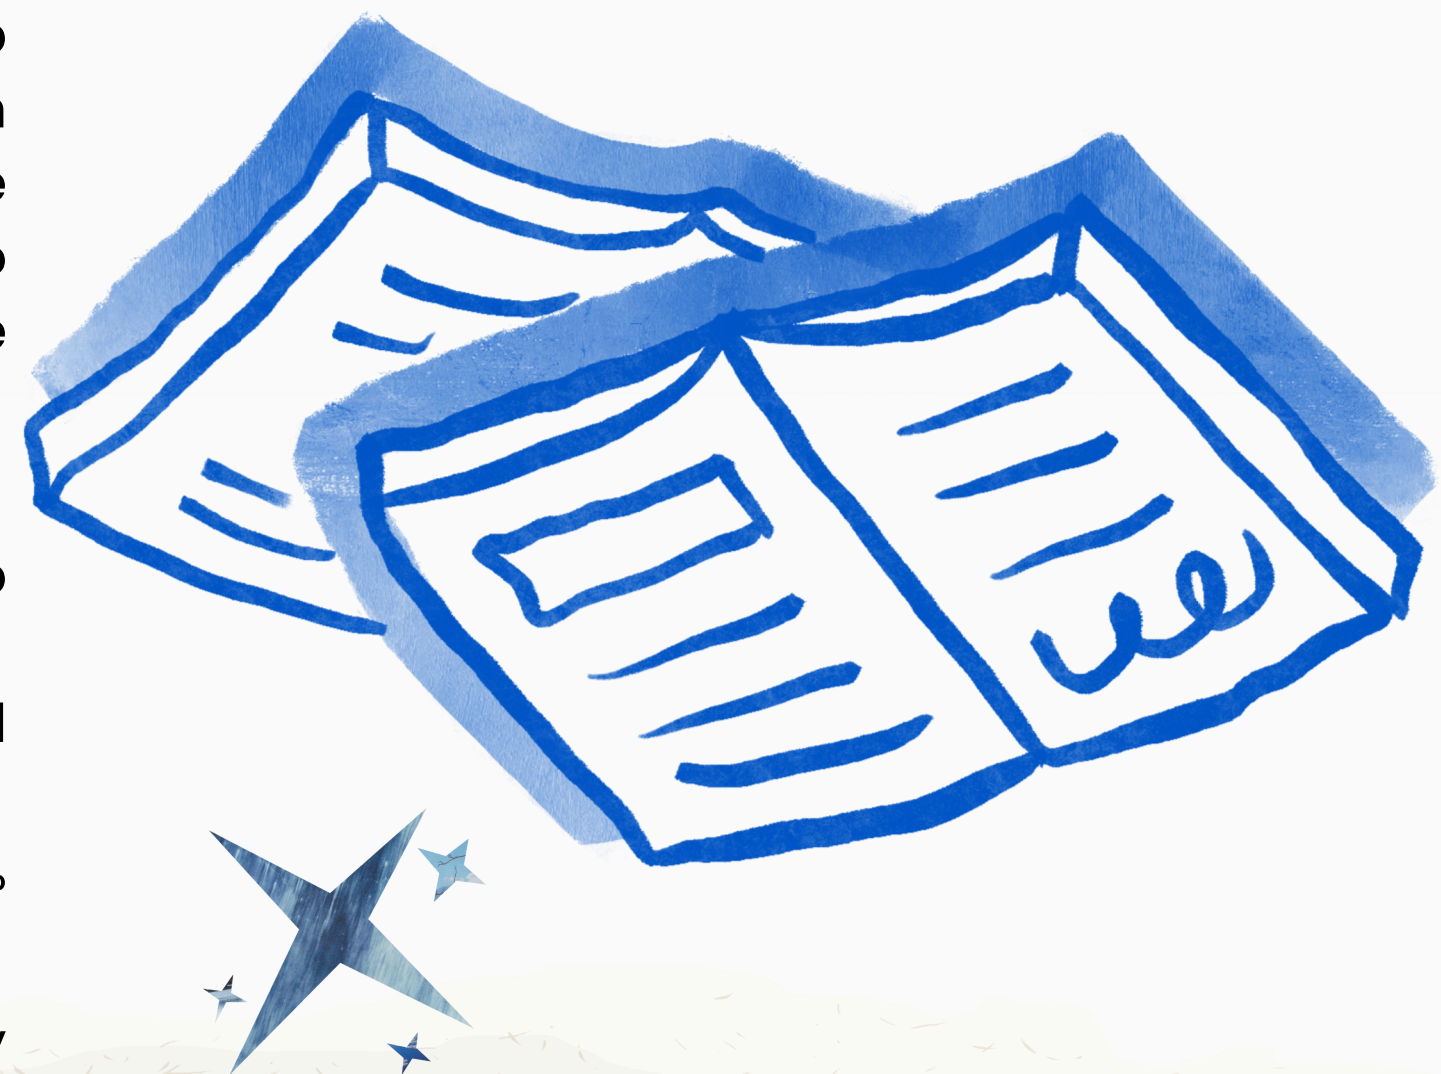

INTRODUCTION

Esrever is a playful, community-owned meme coin and web platform where anyone can reverse text or images and earn points. These points can later be swapped for \$ESREV, the native token of the Esrever ecosystem. No locked tokens, no private sales, no team or VC allocations - only pure meme magic and community rewards

Esrever is a community-driven meme coin and playful web platform where anyone can reverse text or images and earn points. These points can later be swapped for \$ESREV, the native token of the

Esrever ecosystem. Esrever is fully decentralized and 100% community-owned: no locked tokens, no private sales, no VC allocations - just pure meme magic, creativity, and fun

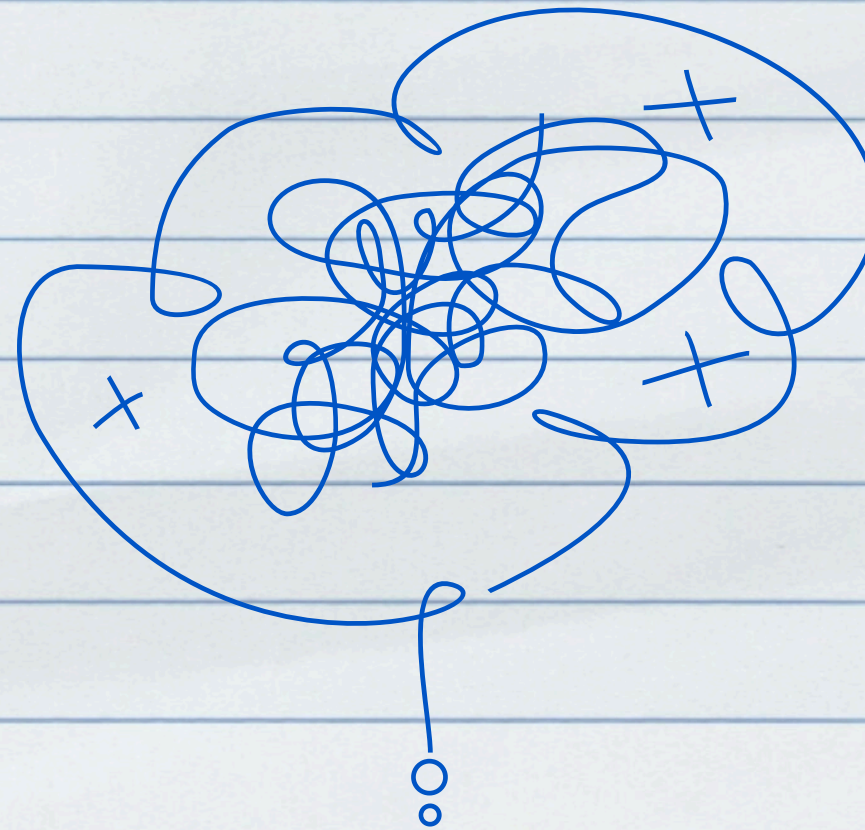

EARN POINTS

Every reversal action earns the user points
(Esrever Points - EP)
Bonus multipliers for sharing reversals on X
(Twitter) or inviting friends

REVERSE ANYTHING

On the esrever.fun website, users can
instantly reverse any text or upload any
image for a mirrored or flipped version

HOW ESREVER WORKS

Top reversers are showcased on a
daily/weekly leaderboard. Achievements
and streaks unlock special badges and
NFT rewards

LEADERBOARD

EP can be redeemed for \$ESREV tokens
directly on the platform, allowing users
to claim a stake in the meme economy

SWAP FOR TOKENS

VISION & MISSION

VISION

To become the most entertaining and rewarding meme coin and web utility in crypto, blurring the line between viral internet fun and real digital value

MISSION

Make every user laugh, engage, and profit from the simplest act: reversing anything – text, images, even logic. Every flip is rewarded
